

## CanVECTOR 2021 Annual Conference Abstract Competition

### Call for Abstracts

The CanVECTOR 2021 Annual Conference will be held on Friday November 5<sup>th</sup> in Toronto, ON. Please read the information below to learn about submitting an abstract to the CanVECTOR Annual Conference.

All abstract submissions must be submitted to [info@canvector.ca](mailto:info@canvector.ca) by midnight ET Sunday September 12<sup>th</sup>, 2021.

#### Submission criteria

- The first author/presenting author must be registered for the [CanVECTOR Annual Conference](#) by the abstract submission deadline
- Eligible research areas include all thrombosis research – i.e. new information on venous thrombosis and anticoagulants to advance science and clinical care
- Research work, which can be completed or still in progress, must represent new scientific information to disseminate at the time of presentation
- At least one co-author on the abstract must be a CanVECTOR member by the abstract submission deadline
- Abstracts must be submitted using the [Abstract Submission Form](#) to [info@canvector.ca](mailto:info@canvector.ca)

**Please make note of the following criteria that will render an abstract ineligible for presentation at the CanVECTOR annual conference:**

- Data are publicly available via major search engines (such as PubMed, Google Scholar, etc.)
- Data are accepted for publication before the abstract submission closing date

Abstracts that have been/will be presented at an international meeting (e.g., ISTH or ASH) are eligible; however, abstracts that have been presented at another national meeting are not eligible.

#### Responsibilities of the Presenting Author

- The first author listed for each abstract serves as the presenting author and as the primary contact for all correspondence regarding the abstract.
- The presenting author is responsible for ensuring that all authors have read the abstract and agreed to be co-authors. Failure to get approval from all authors will result in rejection of the abstract.

Call for Abstracts

Authors' Consent and Waiver of Claims

Each abstract author agrees and certifies that he or she:

- has read all of the rules and agrees to be bound by them,
- is responsible for submission of the abstract in accordance with the rules, and
- waives any and all claims against CanVECTOR and any reviewer arising out of or relating to the abstract submission and review process, including but not limited to peer review and the grading of abstracts.

No revisions can be made after the abstract submission deadline.

Abstracts should be written in clear and concise English, so that reviewers are able to focus solely on the scientific merits of the submission. We encourage non-English-speaking authors to have their abstracts checked for grammar and spelling prior to submission.

**Abstract Review and Selection Process**

After the submission deadline, all completed and eligible abstracts will be made available to the CanVECTOR Abstract Reviewers for blinded review and scoring, and final decisions will be made by abstract review committee in late September 2021.

Abstracts will be evaluated and scored solely on their scientific merits.

Incomplete abstracts will not be reviewed.

The same study must not be submitted as multiple abstracts. Abstracts that are simply different versions of a single study will be rejected.

All abstracts submitted will be considered eligible for oral presentation at the Annual Conference (Friday November 5<sup>th</sup>, 2021) and/or poster presentation at the Annual Conference.

Oral presentations are formal oral presentations followed by a Q&A period.

Poster Sessions allow the viewing of a poster illustration of the abstract. Authors are expected to post and remove posters at designated times and to be at their posters to answer questions during the time designated for poster presentations.

The presentation at the annual conference must reflect the submitted abstract. In particular, the abstract title, authorship, and scientific content of the presentation at the annual conference must match the submitted abstract, although updates on results may be added.

**Acceptance/Rejection Notification**

Notification regarding acceptance or rejection of abstracts will be sent to the presenting author in early-October 2021 by email; consequently, an accurate email address is critical. If your abstract is accepted, the email will specify whether it is accepted as oral or poster presentation.

The decision of the CanVECTOR Abstract Committee regarding acceptance and presentation of abstracts is final.

**Publication**

All abstracts accepted for presentation (oral or poster) at the CanVECTOR Annual Conference will be published in an online-only edition of a Thrombosis-related journal. More information will follow.

**Author Responsibility Regarding Conflict-of-Interest Disclosure**

The presenting author is responsible for obtaining disclosure information from all co-authors.

All authors and co-authors are required to provide any relevant information concerning personal or professional circumstances and relationships that might reasonably be expected to affect the author's view on the presentation.

This includes relationships with pharmaceutical companies, biomedical device manufacturers, or other companies whose products or services are related to the subject matter of the presentation topic. If no relevant relationships exist, this must be stated as well.

**Preparing an Abstract for Submission**

Contact Information

Your name, institution, and email address must be provided. As the corresponding author, you will receive all future correspondence from CanVECTOR.

The corresponding author should be the first author (presenter) of the abstract.

Co-Authors

Names of co-authors and institutions must be provided. Please proof your co-authors' names carefully.

Abstract Title

The abstract title should be brief and clearly indicate the nature of the abstract.

The abstract title must be in title case. Capitalize all nouns, pronouns, adjectives, verbs, adverbs, and subordinate conjunctions (i.e., as, because, although). Except for the first word of the title, lowercase all articles, coordinate conjunctions (i.e., and, or, nor), and prepositions, regardless of length. Also, lowercase "to" when used as an infinitive.

Additionally, keep letters lowercase if the lowercase letters have a specific meaning, such as pH or NaCl.

Do not put a period at the end of the title.

Abbreviations

Use standard abbreviations. Place abbreviations in parentheses immediately after the first mention of a term or phrase; the abbreviation can then be used throughout the abstract.

**Abstract Body, Tables, and Figures**

The entire body of the abstract must not exceed 500 words. Title, authors' names, and affiliations are not included in the word count. Tables and Figures are not accepted in the submission.

CanVECTOR 2021 Annual Conference Abstract Competition  
Call for Abstracts

The abstract may be structured (i.e., abstracts divided into sections using terms such as Introduction, Methods, Results, Conclusions, etc.) or unstructured.

Text may be in multiple paragraphs.

Pay careful attention to superscripts, type case font sizes, and special characters when uploading abstract text.

Use numerals to indicate numbers, except when beginning sentences.

Any references should be noted as citations within the text and not as footnotes at the end of the abstract.

Electronic Signature

Completion of all required disclosure information in the online abstract submission system serves as an agreement and is accepted in lieu of a faxed signature. It certifies the abstract submitter's understanding of the rules for participation contained in the online abstract submission program.

**Contact Information**

Send related correspondence and questions regarding abstract submissions or notifications to:  
[info@canvector.ca](mailto:info@canvector.ca)

Please note that submitting an abstract does not register you for the CanVECTOR Annual Conference.

To register, you must register online using the following link:
