

You can share your skills and knowledge by becoming a CLOT+ Public Jury Member.

A feature in CLOT+ are *Evidence Summaries*, a growing collection of concise summaries of important articles in thrombosis research. As a Jury Member, you can help in selecting relevant articles and can assist in preparing the summaries.

We will send you one or two promising articles per week and ask you:

- Is this article of interest (or is it relevant to you);
- If an Evidence Summary is prepared, to whom should it be directed (patients, doctors, policymakers, etc)?;
- And what is the "bottom line" message of the article for you?

Voting does not take a lot of time – and it will provide you with an opportunity to make your voice heard.

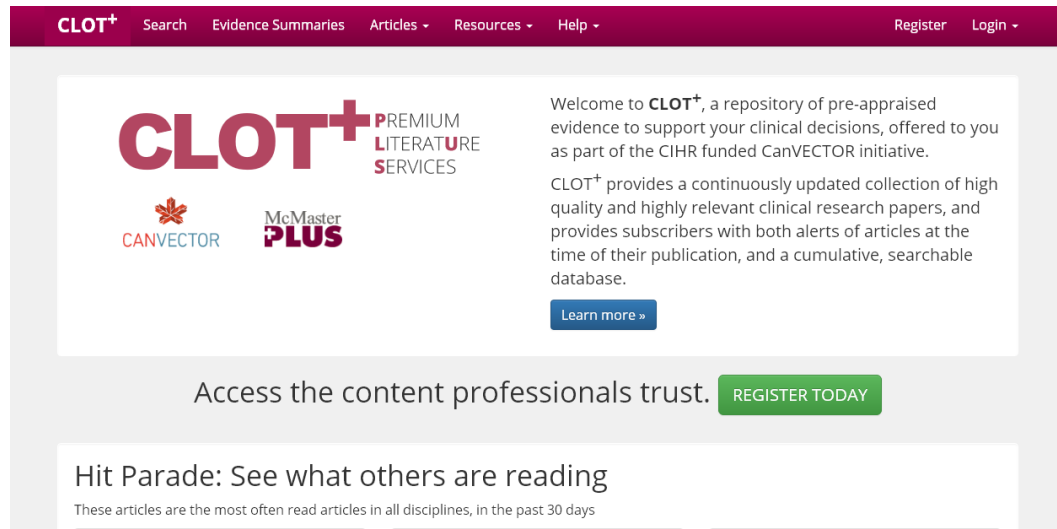

By assisting us to identify, summarize, and disseminate the best available evidence, everyone wins.
