

Inaugural Director, Hamilton Center for Cardiovascular Health

Our client, Hamilton Health Sciences (HHS), is redefining the delivery of cardiovascular healthcare through the development of the "Hamilton Center for Cardiovascular Health" (HCCVH). To lead the development of this innovative center of excellence, HHS is seeking an accomplished, dynamic, innovative individual to assume the position of inaugural Director of the newly created HCCVH. With the support of the hospital administration, five successful independent physician/surgeon groups (Cardiology, Cardiac Surgery, Vascular Surgery, Stroke and Thrombosis) have decided to merge under a common structure and vision. The HCCVH will allow HHS to transform cardiovascular care, training, and research and expand its impact as a world leader in cardiovascular health. This exciting opportunity requires a visionary leader with an established track record as a transformative healthcare leader.

With a foundational blue print developed, the Director of the HCCVH will lead the establishment of the administrative structure, set priorities and strategic directions, guide strategic fund raising, and act as the ambassador for the HCCVH. The Director will champion innovative integrated care models across the 5 physician/surgeon groups, promote and support research, and, in collaboration with McMaster University, develop and implement novel integrated training opportunities for physicians.

The HCCVH Director will report to the VP Adult Regional Care. The Hamilton General Hospital based Physician/Surgeon service leads will report to the HCCVH Director. The HCCVH Director will work in partnership with these Physician/Surgeon leads and the Administrative Directors of the Cardiac and Vascular Program and the Neurosciences Program to develop and lead the HCCVH.

Possessing a stellar clinical reputation, the ideal candidate will be an established cardiologist, cardiac surgeon, stroke specialist, thrombosis specialist, vascular surgeon, or other related specialist. Applicants should be certified (or eligible for certification) by the Royal College of Physicians and Surgeons of Canada and must be licensed (or eligible for licensure) in the province of Ontario through the College of Physicians and Surgeons of Ontario.

Individuals with a strong track record in establishing successful interdisciplinary programs or integration of physician/surgeon groups are encouraged to explore this exciting career defining opportunity.

This position will require the equivalence of approximately 20 hours per week, however, the activity will vary depending on work priorities. The Director of the HCCVH would also be expected to spend a portion of their time working in clinical care at Hamilton Health Sciences. The successful applicant will receive a competitive compensation package.

Please forward a CV in confidence to: Robb Callaghan, E-mail: rcallaghan@medfall.com Tel: 289-238-9079

About HHS

Hamilton Health Sciences is Ontario's most comprehensive healthcare system consisting of a family of five hospitals and a cancer centre, serving more than 2.3 million residents of Hamilton and central south and central west Ontario. With more than 900 beds in operation, 51,919 annual inpatient visits, 27,697 OR cases, 617,559 ambulatory care visits, and 13,273 employees, Hamilton Health Sciences offers an exciting and challenging work environment. Through their affiliation with McMaster University and partnerships with many health care providers and community agencies, Hamilton Health Sciences is at the forefront of innovation and excellence in care, service and research. Hamilton Health Sciences was named one of Canada's Top 100 Employers. For more information about Hamilton Health Sciences, [visit the 2017 report](#) or their website at hamiltonhealthsciences.ca.

Hamilton Health Sciences fosters a culture of patient and staff/physician safety, whereby everyone is guided by their Mission, Vision, Values, and Values Based Code of Conduct. Hamilton Health Sciences is a teaching hospital and all staff and physicians are expected to support students and other learners.

Hamilton Health Sciences is an equal opportunity employer and we will accommodate any needs under the Canadian Charter of Rights and Freedom, Accessibility for Ontarians with Disabilities Act and the Ontario Human Rights Code. Hiring processes will be modified to remove barriers to accommodate those with disabilities, if requested. Candidates requiring accommodation are encouraged to identify any needs through the application processes.
